Standard Request For Proposal (SRFP) (National) For Selection of Consulting Firm

(Complex Time Based – For value above BDT 1 Crore)

Bangladesh Public Procurement Authority (BPPA)
Implementation Monitoring and Evaluation Division
Ministry of Planning

Guidance Notes on the use of the Standard Request for Proposal (e-PS8)

These guidance notes have been prepared by the BPPA to assist a Procuring Entity (the Client) in the preparation of an RFP Document, using this Standard Request for Proposal (SRFP), for procurement of Intellectual and Professional Services having estimated cost above BDT 1 Crore. The Procuring Entity should also refer to the Public Procurement Act, 2006 (Act No 24 of 2006), and the Public Procurement Rules 2025, issued to supplement the act available on BPPA, s website: <http://www.bppa.gov.bd/> including amendments thereto. All concerned are advised to refer to the aforementioned Act and Rules in particular **Section 37-38 and Rules 124-148** respectively, while participating in any selection process of Consultants.

The use of SRFP (e-PS8) applies when a short-listing process following Expressions of Interest has taken place and the short-listed Applicants are invited to submit a Proposal. This document shall be used when a Procuring Entity (**the Client**) wishes to select an Applicant (**Consultant**) for assignments for which remuneration is being determined on the basis of the time actually spent by the Consultant in carrying out the Services.

Time-based contracts are recommended when the Scope of the Services cannot be established with sufficient precision, or the duration and quantity of services depends on variables that are beyond the control of the Consultant, or the output required of the Consultants is difficult to assess. This type of contract requires the Client to closely supervise Consultants and to be involved in the daily execution of the assignment.

SRFP (e-PS8) is based upon internationally acceptable model formats, which have been adapted to suit the particular needs of procurement within Bangladesh. SRFP (e-PS8) has 6 Sections, of which Section 1 (Instruction to Consultants) and Section 3 (General Conditions of Contract) must not be altered or modified under any circumstances.

The Client addresses its specific needs through the information provided in the **Proposal Data Sheet (PDS)** and the **Particular Conditions of Contract (PCC)** as well as in the detailed requirements of the procurement in the **Terms of Reference (TOR)**.

Guidance notes in brackets and italics are provided for both the Client and the Consultants and, as such the Client should carefully decide what notes need to remain and what other guidance notes might be required to assist the Consultants in preparing its Proposal Submission; so as to minimise the inept selection process.

SRFP (e-PS8), when properly completed will provide all the information that a Consultant needs in order to prepare and submit a Proposal. This should provide a sound basis on which a Client can fairly, transparently and accurately carry out an evaluation process on the proposals submitted by the Consultants.

SRFP (e-PS8) duly tailored may also be used for the purpose of Single Source Selection Method.

The following briefly describes the Sections of the SRFP (e-PS8) and how a Client should use these when preparing a particular Request for Proposal.

Section 1. Instructions to Consultants (ITC)

This Section provides relevant information to help Consultants prepare their Proposals. Information is also provided on the submission, opening, and evaluation of Proposals and on the award of Contract. The Instruction to Consultants (ITC) specifies the instructions and procedures that govern the selection process. This Section also contains the criteria to be used by the Client to determine the lowest evaluated Proposal and the qualifications of the Consultants to perform the Contract. The Instructions to Consultants are therefore not a part of the Contract.

The text of the clauses in this section shall not be modified

Section 2. Proposal Data Sheet (PDS)

This Section provides the information that is specific to each object of procurement and that supplements the information or requirements included in Section 1: Instructions to Consultants. The Client shall specify in the PDS only the information that the ITC instructs to be specified in

the PDS. To facilitate the preparation of the PDS, its Clause Numbers are numbered with the same numbers of the corresponding ITC Clauses.

Section 3. General Conditions of Contract (GCC)

The Section provides the General Conditions of Contract that will apply to the Contract for which this SRFP is issued. The GCC clearly identifies the provisions that may normally need to be specified for a particular selection process and need to be addressed through the PCC.

The text of the clauses in this section shall not be modified.

Section 4. Particular Conditions of Contract (PCC)

The Section provides clauses specific to the particular Contract that modify or supplement Section 3: General Conditions of Contract. The Client should include at the time of issuing the Request for Proposal Documents all possible information that the GCC indicate in the PCC. To facilitate the preparation of the PCC, its Clause Numbers are numbered with the same numbers of the corresponding GCC Clauses.

Section 5. Proposal and Contract Forms

A. Technical Proposal- Standard Forms

This section provides the standard format that permits the requested information to be presented in a clear, precise and readily available manner and allows the Client to readily understand and evaluate proposals in accordance with the established criteria. The completed forms will indicate details of the Consultant's organization and experience, methodology, work plan, work schedule, team composition and task assignments, and staffing schedule.

B. Financial Proposal- Standard Forms

This section provides the standard format that permits the requested information to be presented in a clear, precise and readily available manner and allows the Client to easily understand and evaluate proposals in accordance with the established criteria.

C. Form of Contract

The Form of Contract, which, once completed and signed by the Client and the Consultant incorporates any corrections or modifications to the accepted Proposal relating to amendments permitted by the Instructions to Consultants, the General Conditions of Contract, and the Particular Conditions of Contract.

D. Appendixes

The Appendixes to the formal Contract include a description of the Services, the reporting requirements, details of key personnel and Sub-Consultants, a breakdown of the Contract Price, services and facilities to be provided by the Client and different Formats.

Section 6. Terms of Reference

This section defines clearly the Objectives, Goals, and Scope of the assignment, and provides background information (including a list of existing relevant studies and basic data) to enable the Consultant to prepare the proposal. This section lists the services and surveys necessary to carry out the assignment and the expected outputs (for example, reports, data, maps, surveys); it also clearly defines the Client's and Consultants' respective responsibilities.

Formats for JV Agreement, Reporting on Contract Awarding, Reporting on Contract Signing, Service Commencement, Contract Amendment and Accomplishment Certificate are attached at the back of this Document are to be used when applicable.
